Driving while intoxicated is a crime. Your judgment, coordination and ability to drive a vehicle change when you consume any amount of alcohol. The level of impairment depends on five conditions

- the amount of alcohol you drink
- the amount of food you eat before or while you drink alcohol
- the length of time you drink alcohol
- your body weight
- your gender

There is no quick method to become sober. The best method is to wait until your body absorbs the alcohol. The average rate that your body processes alcohol is approximately one drink per hour.

### Types of alcohol and drug-related violations in New York State
